The city starts here.

First Offices stands at the front door of the city, directly at Rotterdam Centraal. A landmark address for businesses that lead - from the first floor to the top.

28.000 m² prime offices • Directly at Rotterdam Centraal • Leasing - Cushman & Wakefield

VISION - 01

01

Not the loudest building – the best positioned one.

BRAND VISION

The brand speaks with the calm confidence of prime real estate: precise, architectural and welcoming. Every expression reinforces one promise - being first.

POSITIONING

First location, first impression, first choice. FIRST doesn't shout about being first; it simply is - and it shows, in every layout and every word.

AUDIENCE

Decision makers of (inter)national companies, advised by Cushman & Wakefield. Professional, design-aware and time-poor: clarity wins.

BRANDMARK - 02

02

One wordmark.
It carries the cut.

The angled terminal of the T points forward and upward. That gesture - the cut - returns throughout the identity, so the wordmark can stay calm and consistent wherever it appears. OFFICES completes the name in the same DIN letter, exactly as it stands on the building.

THE CUT - 03

03

The cut. Our sharpest asset.

Two gestures own First Olive. The cut - sliced from the T - anchors a corner, points the way or splits a surface. The point is the full stop behind every promise: one olive period that ends the headline.

01 - THE CORNER

02 - THE POINTER

03 - THE DIVIDER

04 - THE POINT

Once per layout

One cut is confident, two is noise. The point may close exactly one headline per layout.

Always anchored

The corner sits flush in a corner, the divider runs edge to edge. The cut never floats.

One angle

The slope always matches the T's terminal. Never mirror it to point backwards or down.

Olive leads

Olive is the primary brand colour. On an olive surface the cut turns Skyline Ink.

COLOR - 04

04

Olive leads, slate supports.

Click a swatch to copy its hex value. First Olive is the primary brand colour: it owns the surfaces, the cut and the point. First Slate supports - the wordmark, labels and quiet details. Ink for text, mist for calm. Never long copy in olive.

TYPOGRAPHY - 05

05

Barlow leads every headline.

Two typefaces, strict roles. Barlow - a grotesque with real presence - owns every title, number and label. Inter carries running text: quiet, highly legible, engineered for screens as well as print.
